

## VEHICLE IDLING

The School Board recognizes that although vehicle idling is necessary for certain circumstances, it poses health risks to the community and consumes the financial resources of the Corporation. The Board, therefore, adopts the following policy to minimize unnecessary vehicle idling on school grounds:

### **Application**

This Policy applies to the operation of any vehicle on Corporation grounds.

### **Vehicle Idling Time**

1. Subject to the exceptions listed below, vehicles should not idle for more than five (5) minutes in areas where vehicle exhaust is likely to be drawn in school buildings (“Designated Area”). The Superintendent or a designee may appoint “Designated Areas” where vehicle exhaust is likely to be drawn into school buildings and post notices advising drivers of such areas.
2. Vehicles may idle for longer than five (5) minutes in Designated Areas in any of the following circumstances:
  - a. In temperatures below thirty-two (32) degrees (32°F) and above eighty-five (85) degrees (85°F), idling is permitted to maintain the vehicle’s interior temperature for the comfort and safety of both driver and passengers.
  - b. Idling is permitted to maintain safety or in an emergency, including but not limited to the following situations:
    - (i) using equipment to load and unload special needs students.
    - (ii) using a defroster on windows before departing.
    - (iii) using headlights or other warning signals.
  - c. Idling is permitted as part of pre-trip safety inspections or if necessary to make vehicle repairs.

### **Notice**

At the start of each school year, the Superintendent or a designee shall provide notice of this Policy to Corporation employees, independently-contracted bus drivers, students, and parents.
