

Dyslexia Data

Universal Screeners

We had a total of 13 students that showed some-risk of having characteristics of dyslexia.

Level 1 Screener

We moved one student onto the Level 1 screener for characteristics of dyslexia.

Intervention Used

We used Orton-Gillingham with any students that show characteristics of dyslexia.

of Students Received

We serviced a total of 50 students across grades K-5 with Orton-Gillingham to close the gaps identified from the Universal Screeners.
